

COLLABORATION CONTENT REPORT

ANANTARA SIAM BANGKOK

HStereo Family × Anantara Siam Bangkok

Stay: 27–29 July 2026 | Report date: 24 August 2026

“Some places are more than just a stay.”

COLLABORATION OVERVIEW

A family stay shaped by heritage, hospitality and time together.

This media collaboration introduced Anantara Siam Bangkok through the lived experience of a Korean family of three — combining long-form search content, emotional short-form storytelling, community amplification and original music production.

Hospitality details that stayed with us.
A handwritten welcome from the General Manager and the executive-style workspace in the Siam Suite were especially memorable.

CREATIVE DIRECTION

Heritage, Thai elegance and family storytelling.

HERITAGE IN THE HEART OF BANGKOK

Presenting the hotel as more than a luxury stay — a place where Thai identity, craftsmanship and history remain visible in everyday guest moments.

REFINED FAMILY TRAVEL

Showing that a family trip can feel warm and relaxed while still preserving the elegance of a landmark city hotel.

MOMENTS TOGETHER

Using real family scenes — the suite, pool, garden and dining — rather than staged hotel-only visuals.

BECOMING PART OF THE STORY

Framing the stay as a temporary entry into Anantara Siam’s atmosphere and heritage, not simply an accommodation review.

Siam Suite: work, rest and family time in one space.

WORKSPACE

The suite
The generous desk and executive-style workspace made the room feel inspiring for someone working in marketing and content creation, while the large bedroom, bathroom and dressing areas gave the family space to genuinely unwind.

FAMILY

Service recovery
Following an unexpected issue in the original room late in the evening, the team responded promptly, apologized sincerely and relocated the family to a Siam Suite. The manager and bell team assisted with the move quickly and professionally.

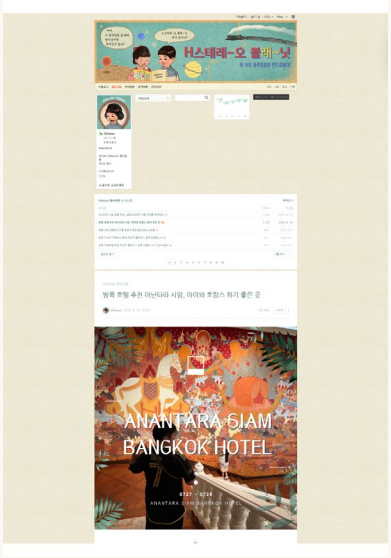

POOL

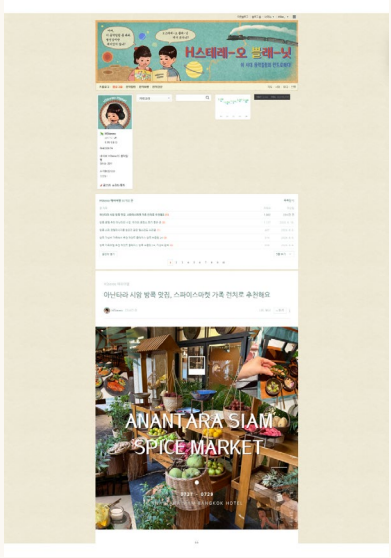

Family experience
Our daughter loved the spacious room, wide breakfast selection and fresh fruit. The gradually deepening pool layout also made family swimming feel comfortable and reassuring. Thai murals and decorative details gave her a cultural experience beyond a typical kids-focused stay.

PUBLISHED CONTENT

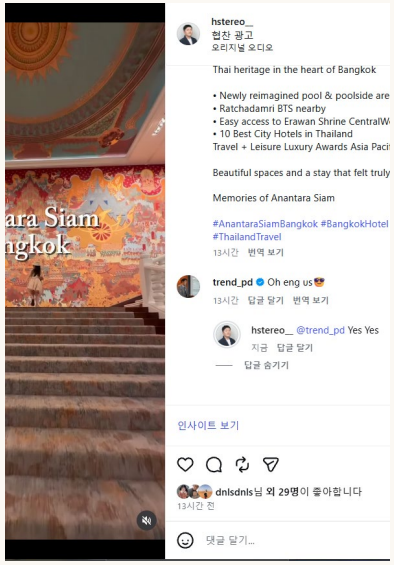

Six published pieces across search, social video and community.

“Music was used to extend the feeling of the hotel beyond the visuals.”

ORIGINAL AI-ASSISTED MUSIC PRODUCTION

Two original tracks inspired by quiet luxury and Thai heritage.

MAIN SOUNDTRACK

Chao Phraya Room

1:23 | Used in Instagram Reel, YouTube Shorts and NAVER Clip

Warm nylon-string guitar and gentle piano create an unhurried resort feeling — designed to express comfort, peaceful rest and the sense of slowing down inside Anantara Siam’s heritage setting.

ORIGINAL COMPANION TRACK

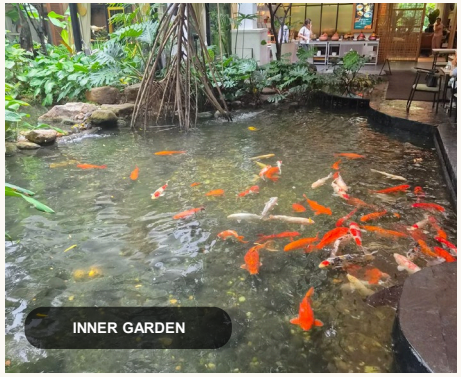

Piano by the Pool

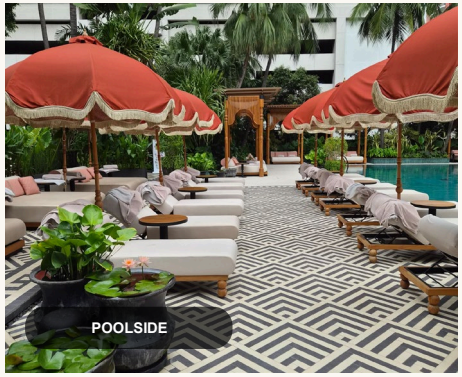

1:37 | Original companion composition

A more spacious, piano-led track inspired by calm moments around the hotel and pool. The arrangement reflects quiet recovery, stillness and a softer side of Bangkok city travel.

VISUAL STORYTELLING

Heritage was not treated as a backdrop — it became part of the family story.

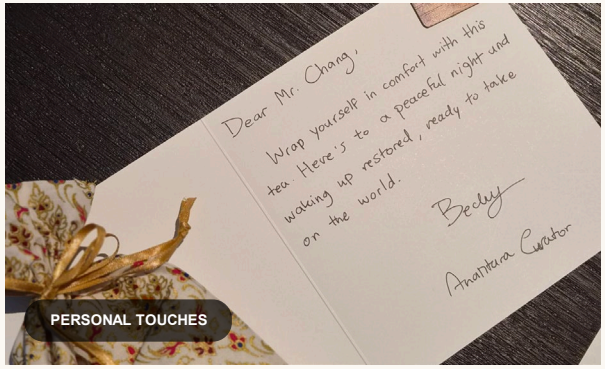

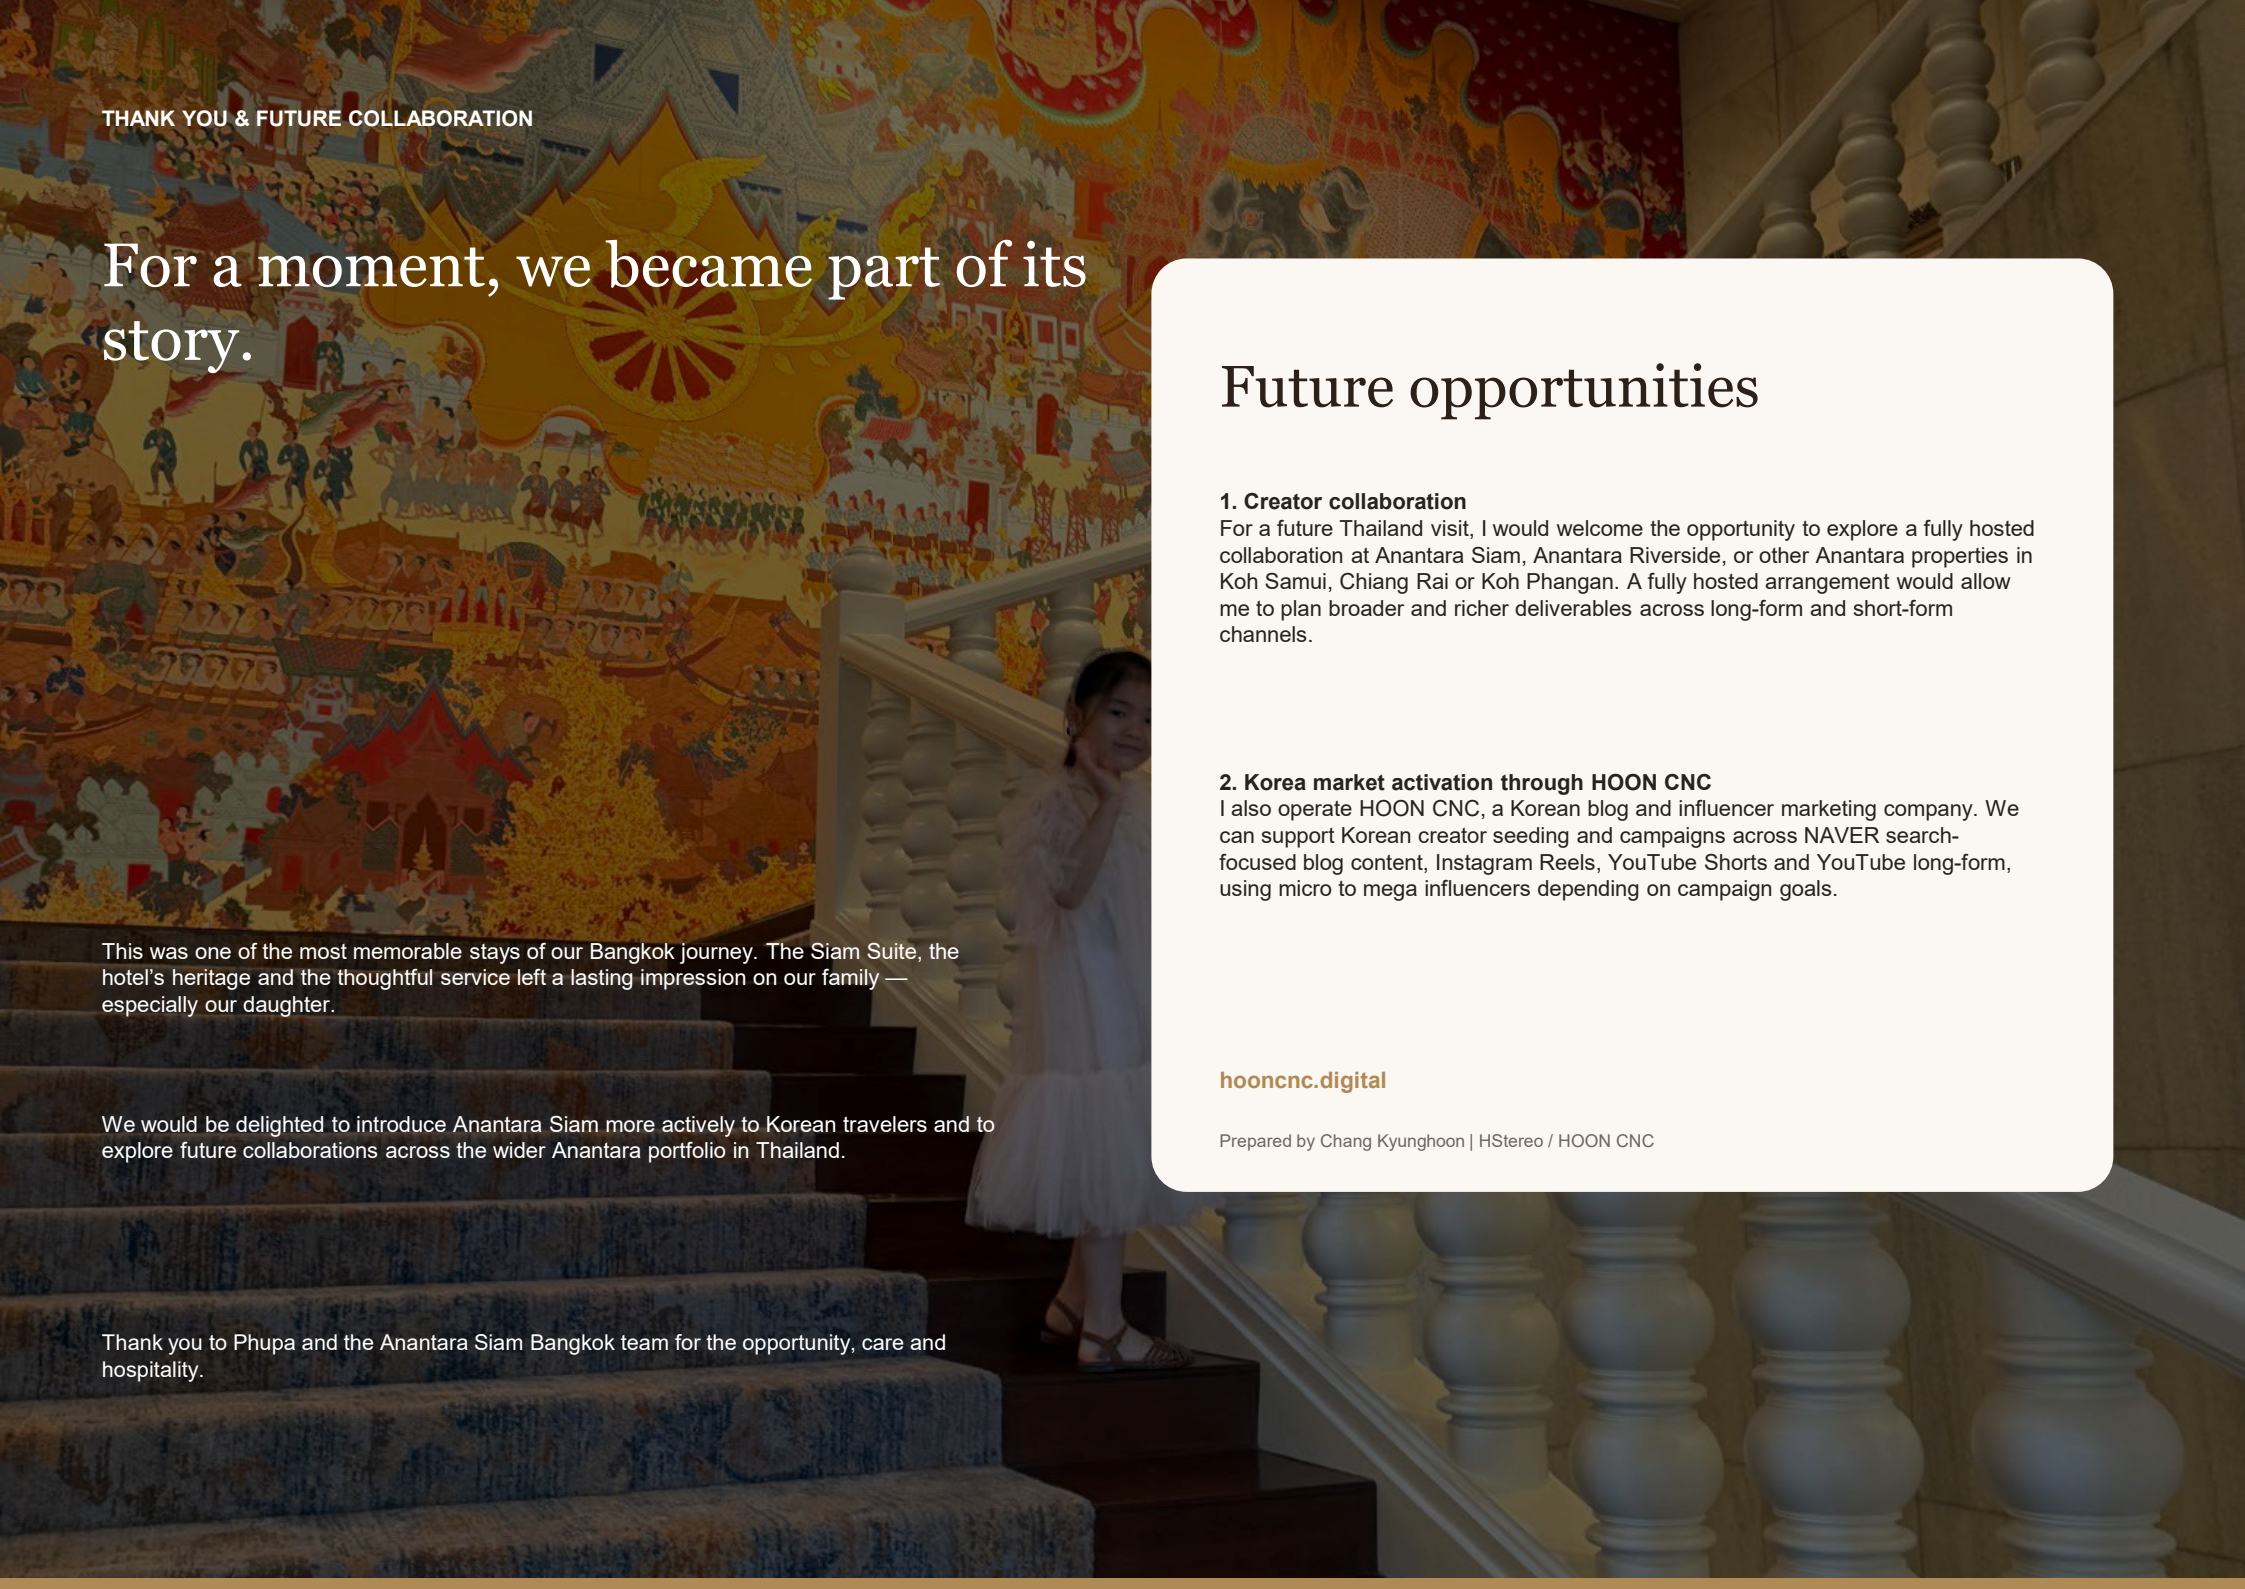

The long-form content documented the suite, breakfast, pool and dining in detail, while short-form video focused on atmosphere, movement and emotional continuity. The result was intended to feel like a family travel story first, and a hotel recommendation second.

THANK YOU & FUTURE COLLABORATION

For a moment, we became part of its story.

This was one of the most memorable stays of our Bangkok journey. The Siam Suite, the hotel's heritage and the thoughtful service left a lasting impression on our family — especially our daughter.

We would be delighted to introduce Anantara Siam more actively to Korean travelers and to explore future collaborations across the wider Anantara portfolio in Thailand.

Thank you to Phupa and the Anantara Siam Bangkok team for the opportunity, care and hospitality.

Future opportunities

1. Creator collaboration
For a future Thailand visit, I would welcome the opportunity to explore a fully hosted collaboration at Anantara Siam, Anantara Riverside, or other Anantara properties in Koh Samui, Chiang Rai or Koh Phangan. A fully hosted arrangement would allow me to plan broader and richer deliverables across long-form and short-form channels.

2. Korea market activation through HOON CNC
I also operate HOON CNC, a Korean blog and influencer marketing company. We can support Korean creator seeding and campaigns across NAVER search-focused blog content, Instagram Reels, YouTube Shorts and YouTube long-form, using micro to mega influencers depending on campaign goals.
